FEES

Fee Schedule

Government fees, service rates, employment costs and costed business plans

Software da Database User 13

> Figures are illustrative. Jurisdictions and amounts are invented for the sample data set and are not legal, tax or payroll advice.

Every fee in the data center's fee tables: what the business pays to government authorities, what it charges clients for services, what each role costs to employ, and what each business plan costs once those fees are applied. Each figure is read from the data, or computed from it, when the document is built.

22	$13,380.00	28	15	4
government fees	recurring fees a year	service rates	employment roles	business plans

1. Government fees

The business pays 22 government fees to 13 authorities in 3 jurisdictions. 14 fees recur and cost $13,380.00 a year; 8 fees are paid once and total $13,680.00.

The annual cost column is twelve months of a recurring fee: monthly x12, quarterly x4, annual x1. A one-time fee is paid once, so it is marked one-time and left out of the annual total. GOV-020 is listed at $0.00: a real entry with no charge, not missing data.

3. Employment costs

15 roles (13 full-time, 1 contract, 1 part-time). The fully-loaded annual cost is what one person in the role costs the business for twelve months:

Fully-loaded annual cost = base salary × (1 + employer tax % ÷ 100) + monthly benefits × 12

Code	Role	Type	Base salary	Employer tax	Monthly benefits	Recruitment fee	Fully-loaded annual
EMP-001	Operations lead Runs the on-call rotation.	full-time	$112,000	9.4%	$780	$0	$131,888
EMP-002	Data centre technician Agency fee on placement.	full-time	$68,000	9.4%	$640	$4,800	$82,072
EMP-003	Senior data centre technician	full-time	$86,000	9.4%	$680	$6,200	$102,244
EMP-004	Network engineer	full-time	$98,000	9.4%	$720	$7,400	$115,852
EMP-005	Security analyst	full-time	$104,000	9.4%	$740	$8,100	$122,656
EMP-006	Senior security analyst	full-time	$126,000	9.4%	$800	$9,800	$147,444
EMP-007	Machine learning engineer	full-time	$138,000	9.4%	$840	$11,500	$161,052
EMP-008	Platform engineer	full-time	$121,000	9.4%	$790	$9,200	$141,854
EMP-009	Site reliability engineer	full-time	$129,000	9.4%	$810	$10,100	$150,846
EMP-010	Account manager Commission is separate from base.	full-time	$82,000	9.4%	$660	$5,400	$97,628
EMP-011	Finance and billing officer	full-time	$74,000	9.4%	$650	$4,600	$88,756
EMP-012	People operations officer	full-time	$71,000	9.4%	$640	$4,400	$85,354
EMP-013	Facilities contractor Billed hourly against SVC-023 rates, no employer burden.	contract	$0	0%	$0	$0	$0
EMP-014	Data labelling specialist 0.5 FTE.	part-time	$36,000	9.4%	$320	$2,100	$43,224
EMP-015	Graduate operations trainee Recruited directly, no agency fee.	full-time	$52,000	9.4%	$580	$0	$63,848

Recruitment fees are not part of the fully-loaded annual cost: they are paid once for each hire, not every year. The business plans in section 4 add the recruitment fee once for each person hired.

Check against the plan costing: the year-one-operating plan costs its Operations lead line (EMP-001, one person, 12 months) at $131,888.00, which is the fully-loaded annual cost of $131,888.00 plus the recruitment fee of $0.00.

4. Business plans

4 plans from the business plans data set, each costed line by line against the fee tables above. A government fee is charged each time it falls due within the plan's months. A service is charged for the units billed, never fewer than its minimum. A role is charged its monthly fully-loaded cost for each person and month, plus one recruitment fee per person. A dash means the plan has no lines from that table.
